Species Election

This application encompasses five different species of the inventive subject matter as shown, for example, in Figures 2, 3, 4, 5, and 6 respectively. Pursuant to 35 USC § 121, applicants are required for a complete response to (1) elect a single disclosed species and (2) list all claims readable on the elected species including any claims subsequently added (MPEP 809.02(a)).

None of the present claims appear to be generic to all species.

Applicants are further advised that a mere argument alleging that a generic claim exists or is allowable will not satisfy a species election requirement. For a complete response, applicants must elect a single species and list the claims readable on that species as set forth above.
